#	Ans	Why (and where to read more)
1	**A**	A temporary password must be replaced at first sign-in. (Staff guide 2)
2	**C**	Managers reset staff passwords; you then choose your own. Never use someone else's account. (Staff guide 3)
3	**B**	5 wrong tries lock that username for 5 minutes. (Staff guide 1, 12)
4	**D**	The Contains line lists allergens from the recipe; the app can't account for shared blenders, so never promise allergen-free. (Staff guide 6)
5	**C**	If sales are imported, ringing them up too counts each drink twice. (Staff guide 5)
6	**A**	Damaged items are recorded as Damaged, not OK, so they aren't added to stock. (Staff guide 7)
7	**D**	Missing items stay on order and can be checked in when they arrive. (Staff guide 7)
8	**B**	Log a delay records what happened and moves the expected date. (Staff guide 7)
9	**A**	Count in the unit shown: 320 + 320 + 160 = 800 oz. (Staff guide 8)
10	**C**	Blank means skipped; 0 means none left. (Staff guide 8)
11	**B**	Logging the whole drink takes all its ingredients out of stock with the right reason. (Staff guide 9)
12	**D**	Always sign out of a shared tablet so nobody works under your name. (Staff guide 11)
